

Students who drop a course (s) between January 10 and January 26 will be charged 10% of all tuition and fees for the dropped course (s). Because most financial aid programs will not cover this charge, students will be responsible for payment.

Course Swapping: Students who drop and add a course(s) on the same day will not be assessed the 10% if the added courses credit hours are the same number or more as the dropped course.
