

Since 1998, I have been a part of Northeastern Illinois University. Apart from being an Alumni and a staff member of Northeastern Illinois University, I have been serving as a Civil Service Council member in various capacities for the past 6 years. Because of dedication from staff, faculty and students I have seen Northeastern Illinois University flourish into this remarkable institution, but more work needs to be done to better our workplace environment.

In this endeavor, to assist the community to create a better work environment, I will exhaust all available Northeastern Illinois University's resources to find effective and acceptable solutions. This can be achieved by reaching-out to the university community through creative thought processes. Further, I will use all the knowledge and experience gained from my insight into civil service council in finding new ways to make Northeastern Illinois University a better place for all. I would be honored to continue to serve as your voice on the Civil Service Council.

Sincerely,

Mirza Baig
Your friend and a colleague at NEIU
