

Update

On August 28 and 29, 2006 the NEIU Board of Trustees Presidential Search Committee held a public meeting at the Crowne Plaza Chicago O'Hare, 5440 River Road, Rosemont, Illinois for the purpose of conducting interviews of candidates for the position of president of the university. Schedules had been developed so that each of the six candidates interviewed also had the opportunity to meet President Steinberg, the university's search consultant, its general counsel and several senior university administrators, in addition to participating in their individual interviews with the Board search committee.

The Board search committee believes that it has now narrowed the field of candidates and will ask its search consultant and the university's administration to schedule on-campus visits for candidates remaining in the process. It is hoped that these on-campus interviews can be arranged during the last two weeks of September and the first two weeks of October.

It appears that the search process remains on-schedule.
