

Greetings! It is my great pleasure and honor to greet you on my first day as president of Northeastern Illinois University. In the coming months I will be visiting each unit to get acquainted and to learn first-hand about your priorities and concerns, and how together we can build on the solid foundation of achievement as we work to fulfill NEIU's mission.

Having successfully concluded the Higher Learning Commission Self-Study and Site Visit in which the team stated that they expect the next visit from the Commission to be in 2016-2017, the University can meet the challenges that lie ahead with a sense of accomplishment and with confidence in our ability to do so. I am delighted to be a part of the University and look forward to working with each of you.

Best Wishes,  
Sharon Hahs
