

## **Presidential Search Update**

The NEIU Board of Trustees Presidential Search Committee previously announced that it had narrowed the field of candidates for the university's presidency and that it had asked its search consultant and the university's administration to schedule on-campus visits for candidates remaining in the process. Subsequent to that announcement two candidates in the narrowed field decided to withdraw from the search process for personal reasons. The NEIU Board of Trustees Presidential Search Committee expects to meet in the near future and review the comments received by the NEIU Board of Trustees Search Committee from various constituencies and the campus advisory committee. We expect that this phase of the process will be complete by about mid-October 2006.
