

On June 8, President Steinberg hosted a reception for members of the NEIU Board of Trustees Presidential Search Committee and members of the NEIU Search Advisory Committee. This was an important opportunity for members of each committee to get together as they begin working together in this very critical search process. Maria Perez, our search consultant, also attended. Later in the day, Ms. Perez made a presentation at the open NEIU Board of Trustees meeting in which she explained the next steps to be followed in the search process. Review of applications should begin in the next few weeks with the expectation that on-campus interviews will be scheduled early in the fall 2006 semester.
