

**Northeastern Illinois University  
Institutional Review Board**

**Appendix D  
Databases/DNA/Tissue/Sample Banks**

*If your research proposes to bank, data, tissue, DNA, or other samples, or materials please answer the questions below.*

Where will the samples/data be obtained from?

What sample/data will be asked for?

What will be the purpose of taking the sample/data?

Will the samples/data be identifiable or potentially identifiable through “links” or “codes”?

Will the sample/data be destroyed after this purpose is served?

If no, how will the sample/data be stored?

Where will the sample/data be stored?

How long will the sample/data be stored?

Will additional purposes be devised for these sample/data?

Will subjects receive any information back?

Who will “own” the sample/data?

Will the investigator of this research remain in control of the sample/data?

Will sample/data be shared with other NEIU investigators ?

If yes, please explain how samples/data will be shared.

Will sample/data shared with investigators outside of NEIU?

If yes, explain how and with whom this will be done.

Is all of this information clear in the consent form?
