

**Presidential Task Force  
on the Millennium Student  
Office of the President**

***SAVE THE DATE***

**Date:** Tuesday, January 16, 2007  
**Time:** 1:40 PM – 3:00 PM  
**Location:** SU-214

We invite all members of the university community to join us in a kick-off meeting to identify and discuss specific areas that need to be considered as we begin the process of addressing a broad range of issues related to retention and graduation rates of Northeastern students in the 21<sup>st</sup> century. The Task Force, co-chaired by Dr. BarBara Scott and Dr. Santos Rivera, will focus on best practices and action steps in areas such as student retention, time to degree, minority populations, first generation, part-time students, and overall excellence across the University for every student at both the undergraduate and graduate level. The initiatives and areas of concern identified at this meeting will help form the basis for the development of sub-committees. The subcommittees will have the responsibility of investigating/researching a specific set of issues and report findings and recommendations to the Task Force chairs who will direct the implementation of immediate and evolving recommendations in accordance with shared governance at the University.

Northeastern's Mission Statement reflects the University's commitment to excellence, access, diversity, and community partnerships. The Presidential Task Force on the Millennium Student is central to that mission. This is a university-wide initiative that will include all areas of the university and we encourage your participation.
