Applicants are accepted into the program dependent on the number of graduate students enrolled, and the state requirement that graduate students tutor an older and a younger child. Please do not send any money until you are notified that your child has been accepted into a program. Acceptance letters are sent in early August 2015. Your child’s consistent attendance is a requirement and is essential to our program. If your schedule, vacations or personal obligations conflict with this schedule, they will interfere with your student’s attendance in the Fall 2015 sessions. We ask that you please respectfully apply for the next semester. We appreciate your cooperation in this matter.
