NEIU Main Campus (Chicago, IL)
University Center (Grayslake, IL)

Program Description

Political Science is central to an understanding of all basic social issues and is one of the most popular liberal arts majors. A political science education gives people the ability to understand the workings of politics and the way it impacts the lives of all of us. A major in this field helps students develop the skills of understanding and analysis, and builds competence in oral and written expression. Graduates go on to careers in law, government, business, public policy, non-profit management, journalism, and teaching.
