- techniques to encourage parental participation
- multicultural school assemblies and fairs
- seminars & workshops on art, culture and technology
- guest speakers (writers, teachers, etc.)
- CPDUs and assistance with your recertification
- technology training

Using the Arts for Academic Development

*"I really like the presentation of the techniques, which helps to get ideas on how to actually use them with my own students. I also enjoy the small discussion, which gives us the opportunity to share and learn from fellow teachers! I also like and appreciate the flexibility of the class!"*

*"Love the activities and the pace of the class. Can't believe how fast the class goes! 😊"*

*"I like how you introduced me to the "arts" in a way I had not thought about, for example, dramatization, and the development of language. Most of my students are in the developing stages of language and need lots of encouragement."*

*"I have become more sensitive to the very real language barrier that exists for some of my students, even though I do not teach in a classroom formally designated "ESL" or "Bilingual". This has helped me very much to build those bridges to understanding."*

### Intro/1<sup>st</sup> Class

Wed., Nov. 15<sup>th</sup>, 4:30 pm - 7:30 pm
