

# How to determine what version of Internet Explorer you have.

1. Open Internet Explorer.

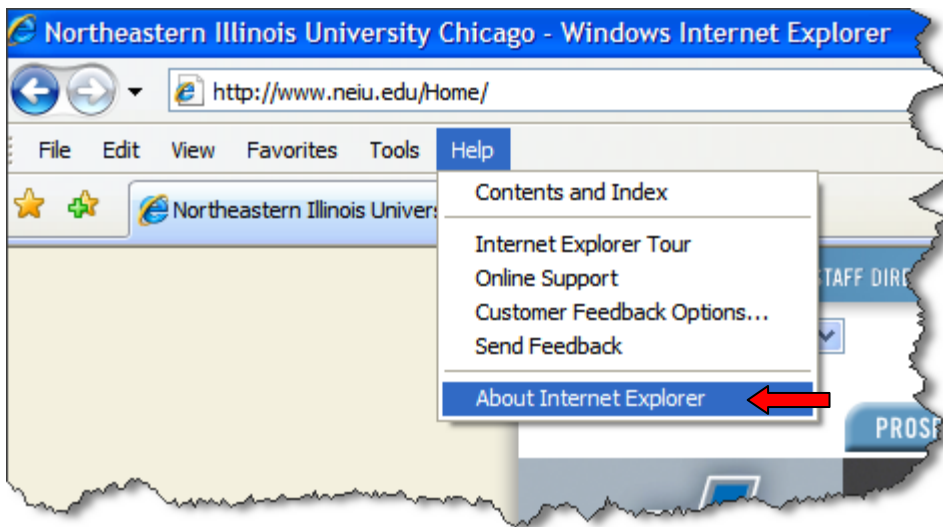

2. Navigate to the menu bar and select **Help**.

NOTE: if you do not see the menu bar, [Click Here](#).

3. Within the **Help** menu, select **About Internet Explorer**.

4. A window will popup, here you will notice what version Internet Explorer you have.

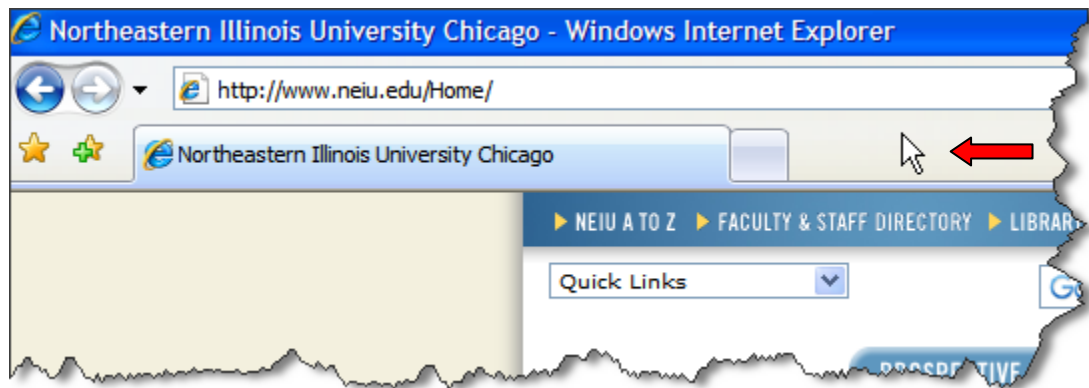

5. When finished, click **OK**.

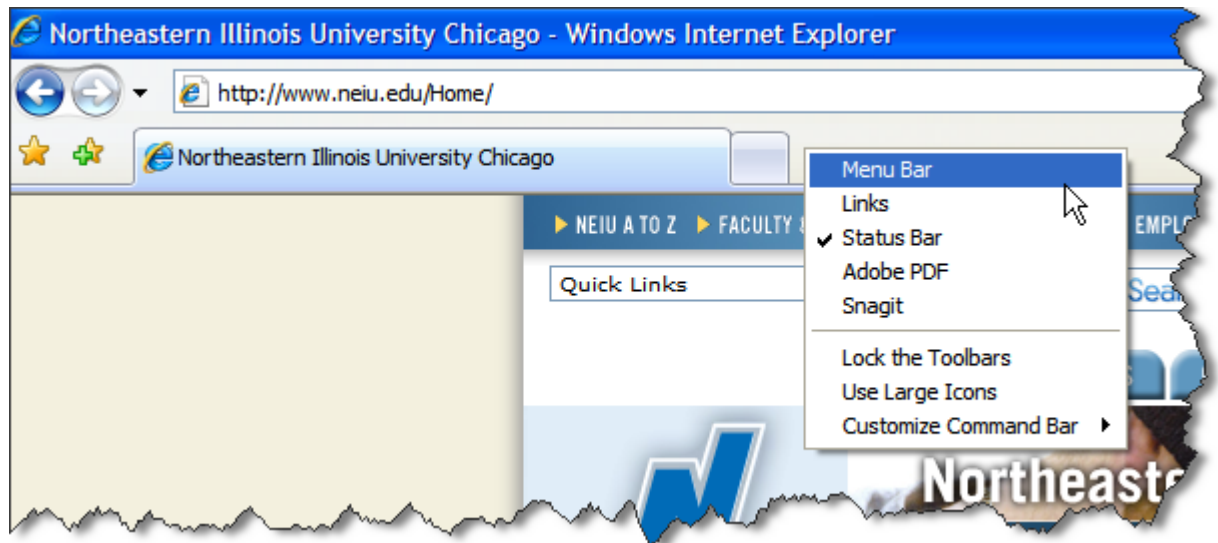

## If the Menu Bar is not present

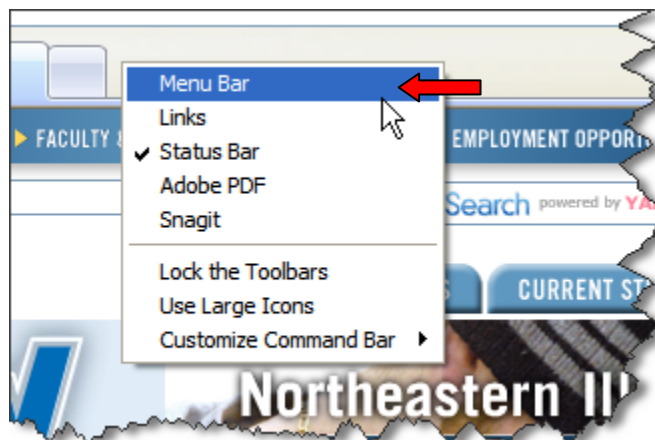

1. Place your cursor over the grey area of the browser.

2. At this point, press your **Right** mouse button and a menu will appear.

3. Select **Menu Bar**.

4. Once you select **Menu Bar**, you will notice that the menu is now present.

[Click Here](#) to navigate back to step 2.
