Degree programs which are authorized by IBHE as of July 2007 have their local codes printed in bold face type. Programs which were eliminated or are in the process of being phased out are printed in italicized, regular typeface. Beginning in Fall, 1986, the major code for undergraduate students in secondary education or K-12 certificate programs will begin with the letter 'F' and be equivalent to the 'AXXX' discipline. For example, a student in Art secondary education will be coded 'F205' and reported out as 'A004'.
