

Daniel L. Goodwin College of Education

Impact on P-12 Learning

The Illinois State Board of Education (ISBE) has developed a public facing website which provides a ranking system with various metrics for each education program offered in the State of Illinois called the IEPP, Illinois Educator Preparation Profile. More information about this site can be found by [clicking here](#).

Below you will find links to each our program's data and the various metrics.

Please note the following conditions:

- Displayed data is dynamic content meaning it is updated daily based on various data sources it uses to calculate metrics.
- If a program has fewer than 10 candidates it will state "Limited Data Available"
- Currently, as of 2020, data is only available for initial teacher preparation programs. In 2021 data will be reported for advanced programs.
- Data currently only collected for those individuals teaching in an Illinois public school so data does not include those teaching in a non-public school, out of state or outside the field of education.

Review the metric for **Demonstrated Teaching Skill** as defined by ISBE as 'the universe of this indicator includes all completers who have a valid performance evaluation score.'

- [Early Childhood Education*](#)
- [Elementary Education](#)
- [English Language Arts](#)
- [Foreign Language – Spanish*](#)
- [LBS II/Behavior Intervention Specialist*](#)
- [LBS II/Curriculum Adaptation Specialist*](#)
- [Learning Behavior Specialist \(LBS I\)](#)
- [Mathematics*](#)
- [Music*](#)
- [Physical Education](#)
- [Reading Specialist](#)
- [Science – Biology*](#)
- [Science Chemistry*](#)
- [Social Science – History*](#)
- [Visual Arts*](#)

*Currently these programs have limited data available.
