

BIOLOGY MINOR REQUIREMENTS

Core Courses

- BIO 201: General Biology I
- BIO 202: General Biology II
- BIO 250: Essential Skills for Biologists*

BIO 250 must be taken before **or along with your first 300-level BIO course.*

3 Biology Electives

- Choose three 300-level biology courses. Options include:
 - BIO 301 (Cell Biology)
 - BIO 303 (Genetics)
 - BIO 305 (Ecology)
 - Any course(s) numbered BIO 310–380, about a wide variety of biological topics.
- At least 2 of the 3 electives must have lecture AND lab. (BIO courses with a lab are 4-credits.)

NOTE:

- All courses applied to the biology minor must be passed with grades of C or above.
- A maximum of 3 biology courses can be transferred toward the Minor in Biology. Only 2 of those transferred courses can be applied to satisfy the Biology electives.
