

March 2022

Dear Parents,

The Penguins and I had a wonderful time learning and discussing the topic of Community Helpers. We explored many careers such as Police Officer, Quarter Back, Radiologist and Soldier just to name a few. The children really seemed to enjoy discovering the different kinds of jobs that are available for both girls and boys. I hope that we all can continue to encourage them to follow their career dreams with out placing a gender on it.

For the month of March, there are lots of things happening. From March 1st to the 4th is a review week. The week after that, I plan to introduce the following letters T, U, V and W. These letters will be integrated into the main topic which is Transportation as well as in all the learning centers. The numbers 1 to 7 will also be reviewed.

Parents please check your child s clothes box. I know you're busy, but many still do not have the appropriate clothes for the crazy weather we are experiencing.

Gentle reminder, they are no home toys allowed in the center. Only a sleep toy which has to be soft like a stuff animal. In addition, they are no outside food allowed unless your child has dietary restriction and the office has been informed. (Remember a doctor's note is required.) This includes only water in your child's bottle. No other liquids are allowed. Thank you for your understanding.

Lastly, please allow your child to do things for him/herself. Children learn by doing. This also helps in development in all areas.

Date to Remember:

3-17-20

St. Patrick's Day #

Sincerely

Ms. Ada,
