

The Biology and Mathematics Departments are Introducing a
Newly Developed

MINOR IN BIOMATHEMATICS

- Become marketable for fast-growing biological careers that require strong analytical skills
- Gain hands-on experience through modeling courses in mathematics and laboratory courses in biology
- Obtain a minor by adding just a few courses to a biology or math major

Courses needed for Biomathematics Minor

BIO 201 (General Biology I)

BIO 202 (General Biology II)

MATH 187 (Calculus I)

MATH 275 or MATH 305 (Statistics)

One additional 300-level BIO course*

One additional 300-level MATH course*

*See an advisor to choose these elective courses.

Questions? Contact Dr. Slate (jeslate@niu.edu) in Biology or Dr. Turian (mturian@niu.edu) in Mathematics.
