Healing Center Workshop
With Ananka Shoney

During this healing centered workshop we will center the work of liberatory movements creating change through decolonial education and collective care. This workshop will be led by community scholar and activist Ananka Shoney.

Participants will explore how herbalism is a liberatory practice for individuals with marginalized and/or intersectional identities, as the simple acts of making and preparing plant medicines create opportunities to be self-sufficient in the face of settler colonial violence, white supremacy and heteropatriarchy.
