

Academic/Student Affairs, Enrollment, and Technology Committee Charter

The Academic/Student Affairs, Enrollment, and Technology Committee is responsible for fact finding, deliberating, advising, and making recommendations to the Board of Trustees regarding NEIU's academic, student affairs (co-curricular), and enrollment management programs and services needed to ensure quality and excellence in realizing NEIU's mission. The committee will also ensure that a robust technology infrastructure and roadmap exists to ensure student and academic success. The Committee will serve as diligent and knowledgeable Board members and provide governance over program and service development, review, assessment, accreditation, and discontinuance; enrollment, performance, and retention; faculty tenure and staff support; governance over the technology strategy, and providing appropriate academic, student affairs and enrollment management resources in support of student success.
