

CAS CONNECTIONS

2024 SPRING TERM | ISSUE #6 APRIL | 15TH, 2024

FROM THE DEAN

Greetings, CAS community,

Counter to T.S. Eliot's characterization of April as the "cruellest month" in his famous poem *The Wasteland*, for the College of Arts and Sciences at Northeastern April is a vibrant and celebratory month, featuring hooding, honors, and awards ceremonies that recognize the achievements of our students and, by extension, our accomplished faculty in the College, as we barrel down the homestretch of the Spring term toward commencement.

I want to open my reflections this month by shining light on and extending congratulations to Dr. Cindy Voisine, the well-deserving recipient of the 2024 Bernard J. Brommel Distinguished Research Professor award, the most prestigious honor we bestow on NEIU faculty in recognition of their outstanding research contributions to our world. Her research has been recognized by and made significant contributions to the international scientific community. Dr. Voisine uses the worm *Caenorhabditis elegans* to investigate the role of molecules and the nervous system in development, aging, and human diseases, fostering a greater understanding of the fundamentals of diseases such as prostate cancer, ALS, Parkinson's, and tuberculosis. Not only does her research have a broad global impact, it is an incredible benefit to our students who have the opportunity to participate in her research as undergraduates!

Indeed, as I reflect on our students' growth in their time at NEIU and all that our faculty do to cultivate our students' capacities so they can impact the world in the work they do, what stands out to me is a hallmark of the CAS student experience—and of our faculty expertise—that is perhaps less highlighted when people recognize NEIU's excellence: the high-level, globally-impactful research in which our faculty, such as Dr. Voisine, are engaged and in which they involve our graduate and undergraduate students.

Our undergraduate students have the opportunity to work with top scholars doing world-class research, a rare opportunity in higher education and one typically reserved for doctoral students at other major research universities. Our students get this experience because of faculty like Dr. Voisine, and they move on to top graduate schools, where they often find themselves better prepared than students from so-called "elite" institutions, and rewarding careers because of these experiences.

FROM THE DEAN CONTINUED...

We don't just set up students for success; they succeed now. At the recent Illinois Louis Stokes Alliance for Minority Participation (ILSAMP) conference, a program funded by the National Science Foundation to increase minority participation in STEM disciplines, 7 NEIU students won awards for best poster/oral presentation. Congratulations to Jonathan Scott Haines, Vincent Lotesto, Nathaniel Santiago, Stephanie Pedraza Marin, Favour Ogukwe, Krishna Parikh, and Sorayya Nazari! And Vincent Lotesto also won First Place at the 2024 Chicago Society for Neuroscience Meeting at Loyola University Chicago last March 1.

Faculty doing great research shape students who do great research, especially in the College of Arts and Sciences at NEIU. If you want to see how, come visit us this April 26 at NEIU for the 31st John Sargon Albazi Student Symposium, showcasing the research and creative activities of our undergraduate and graduate students.

Education is not just about assimilating received knowledge; it's about participating in the production of new knowledge and figuring out how to solve the problems facing us as a people in order to better the lives of all and direct social development toward greater humanity.

While NEIU is a small state school nestled in a humble residential neighborhood on the northside, our faculty are world-class scholars engaging in impactful and internationally-recognized research. And our students at both the undergraduate and graduate levels benefit from the incredible experience of having opportunities to participate with our faculty in this research.

I often hear people question whether a college education is "worth it." I ask back, "Worth it for whom?" Our society needs universities like NEIU to produce the next generation of thoughtful and skilled people with the expertise to do the work of the world to help meet our collective needs and address our pressing challenges.

Let me suggest a college education is worth it for all our sakes. Enjoy the spring!

Sincerely,
Tim Libretti
Acting Dean of the College of Arts and Sciences

CURRENT CAS STUDENT HIGHLIGHT

Jeremy Raucci

PHYSICS MAJOR

Jeremy Raucci (left) pictured with fellow Physics major Nathaniel Santiago.

What is your current major? I am a junior physics major.

What are your career goals?

My goal after I graduate is to get accepted into a Ph.D. program. I am interested in many subjects of physics and have gotten the chance to see how research is conducted. I have researched atmospheric science with Dr. Gregory Anderson and this summer I will be collaborating with Fermilab to research dark matter with Dr. Orin Harris. I am still not sure what part of physics I want to focus on in graduate school but I enjoyed classes like astrophysics, optics, modern physics, and computing for scientists.

What do you like about NEIU so far?

What I like most about NEIU is the STEM department. My whole experience with the classes and professors has been very good. The class size is smaller for most classes, which means a more hands-on learning environment. Every professor I've had has been very passionate about teaching and very willing to help and ask questions. There are many opportunities for students to learn about internships and career paths through the SCSE or ARCOS events. I also like how the amount of opportunities has grown since when I first came here. It seems like there are more events and clubs around for students to engage in extracurricular activities. One club I do is the Volleyball Club. We have a game against UIC this Friday on the 29th so come and watch.

Anything fun/interesting that we should know about you?

I am a pretty good bowler. I've been bowling for a couple of years now and my best game is 278. Another fun fact, I have a fat cat.

STAFF HIGHLIGHT

David Nissim-Sabat

DIRECTOR OF PRE- PROFESSIONAL ADVISING (PRE-HEALTH & PRE-LAW)

David has been instrumental in meeting the needs of students in the CAS who are interested in health and/or the law careers and/or graduate programs.

David works with students on a number of areas, including:

- Assisting students in the application process to professional graduate programs
- Providing information about the basic requirements and admission procedures for professional graduate programs
- Assisting students with personal statements
- Providing opportunities for students to learn more about professional and graduate programs as well as other career options
- Guiding, monitoring, and assisting students in their academic progress
- Helping students to succeed in their involvement of activities, workshops, and enrichment experiences.

David is actively involved with both the National Association for Advisors for the Health Professions (NAAHP) and the Midwest Association of Pre-Law Advisors (MAPLA).

David has also been heavily involved in the CAS Career Readiness Initiative helping to develop and chart career pathways and working to identify core competencies taught across the CAS curriculum.

In addition to David's professional activities, he is also an accomplished photographer and drone pilot. The CAS is lucky to have such a Renaissance person amongst our ranks!

You can make an appointment with David by using this link:

<https://www.linkedin.com/in/davidnissimsabat/>

Also, be sure to check out David's **pre-professional advising webpage**: <https://www.neiu.edu/pre-professional-advising> which contains a wealth of helpful information.

ALUMNI HIGHLIGHT

Rolando Serna
PSYCHOLOGY

ALUMNI HIGHLIGHT *Rolando Serna*

PSYCHOLOGY

Undergraduate major-

My undergraduate major was psychology.

Graduate school and program- I attended Governor's State University where I received my Master's degree in Social Work.

What are you doing now?

Currently, I am working as a Bilingual Adult Therapist at a community mental health center called, Kenneth Young Center in Elk Grove Village, IL.

What do you remember most about your time at NEIU?

I loved all the cultural and social events on campus as well as all the teachers that were passionate about the subjects they taught. Additionally, my LGBTQ minor. My minor helped empower and validate my identity as well as my struggles. My minor is what led me to discover that I am a Social Worker.

What is a word of advice for current students?

1. Prioritize yourself and your dreams. Stay true to your identity, keep finding what inspires you and if the excitement or passion begins to fade in your studies, re-evaluate your major and choose a path that will align with who you are and your values. It's important because you will need the passion well into your career.
2. Investigate and utilize as many resources that are available to you it will not only help you understand the assignments, but also help improve your mental health.
3. Prioritize getting involved with cultural and social events on campus. These events will help you make friends, increase your social network, inspire and fuel your creativity, knowledge, and dreams.

ALUMNI HIGHLIGHT

Rolando Serna PSYCHOLOGY

Anything else that you think is important that we haven't asked?

I want to send a special thank you to the staff at the Pedroso Center. Thank you for providing a safe space where I could feel seen, heard, validated, and empowered. Thank you for not taking a "neutral stance" on social justice issues. The Pedroso center and my Women and Gender study classes taught me the many ways that advocacy could look like and how to hold space for others during vulnerable moments. This and other feminist ideologies I have adapted into my practice with the goal to validate and empower the marginalized and oppressed people that I serve.

I also want to thank the teachers that spent a few minutes after class ended to let me know of the potential they saw in me. It's because of passionate, empathetic, and supportive teachers that I was able to continue on to graduate school and now a Therapist for Adults.

At the age of 29 I began to work on my bachelor's degree. I am a first generation college student, I am a product of immigrants, and a Queer Latinx non-binary professional. Part of my success is due to the amazing education I received from NEIU.

Early on as a child the bar was set low for me especially because I graduated from one of the poorest performing districts in the state of Illinois at the time. I was not expected to go to college nor attain a profession. I internalized the belief that I was not smart enough and sought out mental health services to unlearn some of those self-limiting beliefs when I began working on my associate's degree.

My hopes is that my story can serve as a small beacon of hope for any student that doesn't believe that they are capable of attaining a college degree or a profession due to their background or identity. I hope my story reminds NEIU student's the importance of having a dream. Finally, I hope to read of your success story too one day. Yes we can! Si Se Puede!

CALLING ALL CAS ALUMNI

To share your professional journeys and successes

We know that so many of you, our alumni, have leveraged your NEIU Arts and Sciences degrees into rewarding professional and personal lives.

We'd love for you to share your journeys and successes with us as a way of helping our students understand the many career pathways and possibilities the NEIU College of Arts and Sciences (CAS) degrees and curriculum open up for students. For students who major in accounting, the career path may seem clear; however, the paths for an Anthropology, Sociology, History, or Physics major may, at first glance, be less clear but may very well be more multiple and various.

The CAS has embarked upon a Career Readiness initiative, one purpose of which is to highlight the key skills and abilities students learn and develop in NEIU's liberal arts and sciences programs, which employers seek and which prepare them for career success.

Your stories and wisdom will help us to help our students! Tell us what you're doing, what you've done, and how your degree helped you, or whatever else you'd like us to know. And if you'd like to be more involved and come talk to our students or help our students in their career journey in any way (internships or micro-internships), let us know.

Contact Tim Libretti, Acting CAS Dean, at t-libretti@neiu.edu

MINOR IN DISABILITY STUDIES

What is Disability Studies?

Disability Studies is an interdisciplinary field that...

- views disability as a universal part of **the human experience**, rather than a deficit that must be fixed, cured, or hidden.
- examines how **ideas about disability** can both oppress and empower people with disabilities.

What can you do with a minor in Disability Studies?

- **Learn to identify and respond** to unjust power relations and hierarchies.
- **Work towards inclusion and empowerment** of people with disabilities.
- **Acquire employable skills** in critical thinking, data analysis, ethical reasoning, engaging with diverse communities, information literacy, self-awareness, and communication.
- **Prepare for multiple career paths**, including education, social work, government, law, medicine, public health, physical and occupational therapy, and beyond.

CAS REPRESENTING

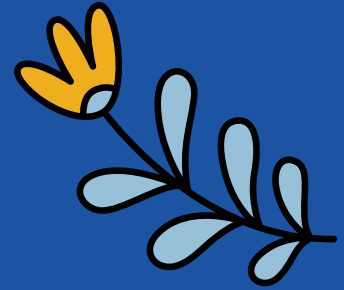

at the Latino Expo on 4/4/24

THE LATINO EXPO

4/4/24

Northeastern Illinois University--the longest-standing 4-year public Hispanic Serving Institution in the Midwest--hosted the first ever Midwest NCRF Latino College Expo on campus.

The event was well attended and featured on the spot admission decisions, scholarship awards, and college access seminars (e.g., Money for college: Financial Aid and Scholarships; Navigating Your Path: The Guide to Selecting a Major).

Other universities and businesses also attended the event to welcome students. The day was full of prospective and current students and their families, community members and fun--including stilt walkers, live music, food, and magicians.

The entire university came together to showcase what is unique about NEIU, demonstrate our school spirit, highlight the programs that we have to offer and allow folks to see our unwavering support of access and equity in higher education.

THE LOSAH CENTER OF HOPE/ CENTRO DE ESPERANZA

LoSAH has a mission to provide free, accessible, culturally informed, quality mental health care to community residents in Logan Square, Avondale, and Hermosa. The grand opening was April 13th, 2024.

Several current and former faculty and alum from NEIU Social Work are involved in the making of this extraordinary center.

- Milka Ramirez (former SWK faculty) has led the commission
- Andy Brake (current SWK faculty) is on the commission
- Melissa Texcahua Reyes (SWK alum) is also on the commission
- Albany Rodriguez (SWK alum) is the Bilingual Case Manager
- Patricia Aguado (current SWK faculty) is on the board for the future Humboldt Park center

LoSAH
CENTER OF HOPE

FACULTY SHOUTOUTS

Dr. Kahouadji is an Associate Professor of Mathematics. Nabil has shown excellence in teaching, innovation, high standards, and a positive impact on students at NEIU.

Congrats to Dr. Cindy Voisine, Biology, the 2024 Bernard J. Brommel Distinguished Research Professor Winner!

Dr. Voisine will receive a \$5,000 cash award and make a presentation about her research and creative activities to the NEIU community in the Fall 24 semester.

Also, congrats to our other CAS finalist Dr. Scott Hegerty, Economics

Handshake

Handshake is the No. 1 career platform for students and alumni. It encompasses a large-scale network with more than seven million student users and access to more than 500,000 employers. Handshake offers new features, enabling you to:

- Access personalized job recommendations based on your major and interests
- Register for career fairs, on-campus, off-campus, and nationwide industry events
- Manage on-campus interviews with top companies and connect directly with employers
- Schedule appointments with your career coordinators.

COLLEGE OF ARTS AND SCIENCES STUDENT ADVISORY BOARD

Northeastern Illinois University's College of Arts and Sciences (CAS) is interested in assembling a **Student Advisory Board** to provide the Dean's Office with **insights into student experiences** in the CAS and to raise issues/concerns regarding processes on campus.

Advisory board members are also expected to be available a few times a semester to promote the college and provide a student voice at various events during the year. The board will consist of 15 undergraduate students (and two alternates) representing a variety of CAS majors and life experiences. The advisory group will meet approximately three times a semester with the CAS Deans and may be asked to provide feedback on urgent matters between meetings.

The Student Advisory Board provides students with leadership opportunities, centers students in CAS decision-making, affirms and acknowledges student experiences and allows students to help share and improve processes. Students should be able to commit to one academic year and will not be able to serve more than two years on the board.

APPLICATIONS ARE ACCEPTED ON A ROLLING BASIS AND NEW BOARD MEMBERS WILL BE ANNOUNCED EVERY SEPTEMBER.

CAS SCHOLARSHIPS WEBSITE LINK

Merit Scholarship Application

The College of Arts and Sciences provides a limited number of Merit Tuition Scholarships for interested and deserving undergraduates (Second Bachelor's candidates are not eligible) within the College of Arts and Sciences. These scholarships are generally granted for three to six credit hours and students **MUST** be enrolled at least half-time.

Scholarships will be granted on the basis of the student's intended major, status, intended Career/Educational Goals, transcripts and/or ACT/SAT scores, and letter of recommendation.

To be considered for selection, applicants must meet the following criteria:

- Transfer and NEIU continuing students must have a minimum cumulative GPA of 3.25
- Students who have earned 45 credit hours at NEIU must be declared majors in the College of Arts and Sciences. Transfer students with over 45 total hours must declare their major in the College of Arts and Sciences by their second semester at NEIU.
- Entering Freshmen must be in the top 15% of their graduating class or have a minimum ACT score of 24 or SAT of 1110.

Applicants must submit a complete application including:

- The name and email address of a faculty member who has agreed to complete a faculty recommendation form
- Official college transcript (NEIU transcripts may be unofficial), OR an official high school transcript reflecting class standing and ACT/SAT scores.

This award may be withdrawn in instances of substantiated academic misconduct or other violations of University standards pertaining to proper student conduct.

Application Deadlines:

Fall: May 15th

Spring: October 1st

Summer: February 1st

The College Merit Tuition Scholarship Committee will review all applications and notify applicants, approximately, one month after the application deadline. Incomplete applications will not be considered.

The next CAS Undergraduate Merit Scholarship Deadline is May 15th for Fall 2024.

Our Merit Scholarship application has changed. It is now on a Google Form !

Scholarship Opportunity!

Fred Hampton Scholarship
\$1,000
Fall 2024

Criteria:

- Must be currently enrolled at NEIU
- Grad or Undergrad
- Cannot be a current Hope Chicago Scholar
- Must have a GPA of 2.0 or above
- Preference given to African American Males
- Must submit a complete application

Fred Hampton was an activist and Chairman of the Illinois chapter of the Black Panther Party, this scholarship is established by NEIU.

CHECK OUT THESE NEW CAS SCHOLARSHIPS!

J. Njogu and Eben C. Morgan Scholarship- \$2000

The J. Njogu Kararu and Eben C. Morgan Scholarship (\$4,000 total, \$2,000/awarded to TWO students) provides annual support for students in the College of Arts and Sciences. Each year, the College of Arts and Sciences will invite applications from qualified students who have faced challenges in pursuing their education but remained diligent and persistent in that pursuit nonetheless. Undergraduate students who have declared a major in the College of Arts and Sciences at Northeastern Illinois University are eligible to apply.

THE STUDENT SUBMISSION DEADLINE IS **5:00 P.M. ON MAY 3RD, 2024.**

Click link below for submission instructions and criteria.

The Bernard J. Brommel Doctorial Scholarship- \$5000

The purpose of this scholarship is to support doctoral study for alumni who have received either bachelors or master's degrees from Northeastern Illinois University who meet the specified criteria as stipulated by the donor, Dr. Bernard J. Brommel.

THE STUDENT SUBMISSION DEADLINE IS **MAY 31ST, 2024.**

Click link below for submission instructions and criteria.

CHECK OUT THESE NEW CAS SCHOLARSHIPS!

The Dr. Harry N. Hild Student Writing Award- \$1500

The Dr. Harry N. Hild Student Writing Award for the College of Arts and Sciences provides annual support for students in the College of Arts and Sciences. Each year, the College of Arts and Sciences will host a student writing competition to celebrate the importance of effective communication skills. To participate in the student writing competition, applicants must submit an original written work that will be reviewed by a selection committee consisting of faculty in the College of Arts and Sciences. Undergraduate students who have declared a major in the College of Arts and Sciences at Northeastern Illinois University are eligible to apply.

THE STUDENT SUBMISSION DEADLINE IS 5:00 P.M. ON MAY 3RD, 2024.

Click link below for written text instructions and more information.

Brommel-Hanson-McGee Scholarship- \$1200

The Brommel-Hanson-McGee Award provides annual support for students in the College of Arts and Sciences. Each year, the College of Arts and Sciences will invite applications from qualified students who have faced challenges in pursuing their education and also demonstrated high academic achievement, potential for future success, and community leadership at NEIU or externally. Applicants must be a junior student (90 or more credits) entering his or her senior year.

Click link below for submission instructions and criteria.

THE STUDENT SUBMISSION DEADLINE IS 5:00 P.M. ON MAY 3RD, 2024.

CONSIDER DONATING: SUPPORT NEIU & OUR STUDENTS!

Thank you for supporting the College of Arts and Sciences (CAS). The College of Arts and Sciences (CAS) is the largest college at NEIU with more than 30 programs. We pride ourselves on being an incredible student-centric office and do our best to break down barriers for NEIU students.

The CAS is thoughtful about how we spend donations and our decisions are guided by NEIU's values of Integrity, Excellence, Access to Opportunity, Diversity, Community and Empowerment Through Learning. We appreciate any contributions that help us to advocate for and support our hard-working students.

You can choose to donate to a few different funds:

- THE COLLEGE OF ARTS AND SCIENCES (CAS) UNRESTRICTED FUND
- THE COLLEGE OF ARTS AND SCIENCES UNDERGRADUATE SCHOLARS PROGRAM (CUSP)
- BLACK ENSEMBLE THEATER PARTNERSHIP FUND
