PSYCHOLOGY CORE COMPETENCIES

A: Self-Awareness and Self-Improvement

Knowing yourself, your strengths, your limits, and your potential may not sound like an important skill learned in your college education; however, your courses, professors, and your time at NEIU have improved your strengths, helped you to find and challenge your own limits, and discover your potential. These skills also apply to your relationships with others and how you will continue to grow, improve, monitor and self-reflect throughout your life.
