

BUSINESS INNOVATION & GROWTH CENTER

Coach/Mentor

The BIG Center provides workshops, webinars and one-on-one coaching/mentorship to ensure that our founders are exposed to a wealth of knowledge and know-how on the financial and management complexities of creating and running a business. Our coaches and mentors are leaders who believe in the BIG Center's mission to empower the entrepreneurial spirit.

This is a great opportunity to shape the future of innovation and be a catalyst among the next generation of business and tech leaders.

A coach/mentor will:

- be familiar with the Center's curriculum and know how to field frequently asked questions;
- provide business acumen coaching and mentorship to the program participants;
- host industry-relevant workshops to build up professional skills;
- introduce connections to program participants to widen their network;
- enhance the reputation of the BIG Center through outreach and promotion.

Coaches/Mentors will commit to 3-5 hours a month to meet deliverables.
