

# Photo Representations of Dr. Isidore Udoh's Work in the Niger Delta

## Assessment of Leaking Oil Wells with Community Leaders in Oloibiri, Bayelsa State in 2019

Oil Well #1

Oil Well #2

Picture Taken July 2019: Decommissioned and abandoned by Shell, but still leaking oil

*(Left) Isidore Udoh (in red) with colleagues and community groups during assessment of leaking (decommissioned) oil wells in the Niger Delta;  
(Right) A supposedly decommissioned oil well that is continuing to spill oil into the rainforest environment*

## Leaking Oil from Well #2

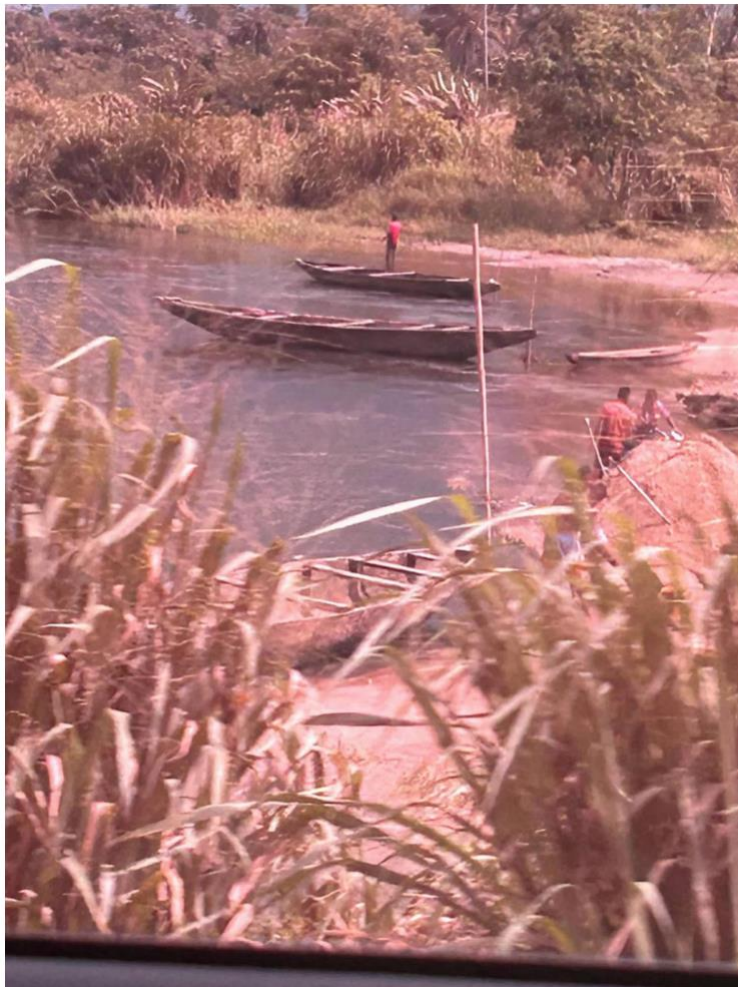

Pictures taken July 2019

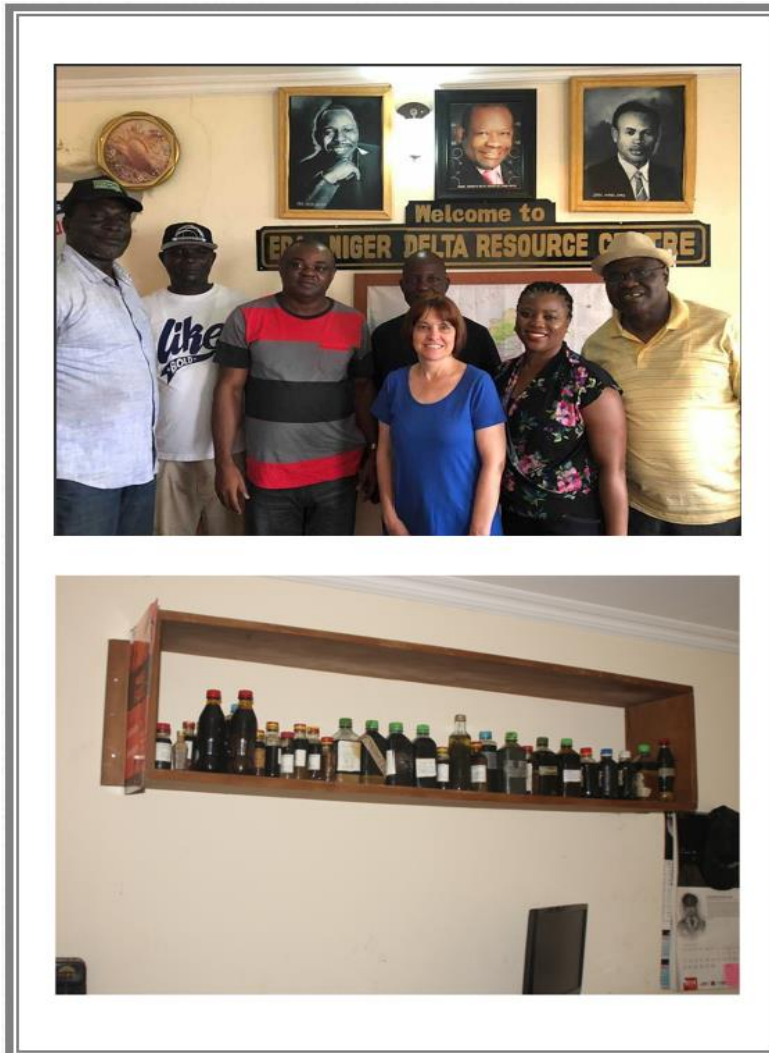

*Isidore Udoh with colleagues and community groups assessing oil pollution sites in the Niger Delta*

*Isidore Udoh and community groups/NGOs walking through polluted and degraded rainforest ecosystems in the Niger Delta*

*Damaged mangrove ecosystem in the Niger Delta, negatively impacting fishing and farming*

*Isidore Udoh (in red) visiting the offices of an NGO, ERA Niger Delta Resource Center. On the shelf are samples collected by the NGO during recent major oil spill events in Bayelsa State, awaiting analysis*

*Isidore Udoh (third from right), with students and faculty from the University of Uyo at the palace of the Paramount Ruler of Eket, HRM Owong Effiong Bassey Archianga. The team made a courtesy call on the traditional ruler to discuss efforts to combat oil pollution and climate change in Akwa Ibom State, Nigeria*

*Isidore Udoh having a close discussion with the Paramount Ruler of Eket, HRM Owong Effiong Bassey Archianga at his palace, during a courtesy visit to the traditional ruler's palace.*

*A visit by Isidore Udoh to students and principal of St. Joseph Secondary School in Akwa Ibom, Niger Delta, in 2024 to plan for climate-related community science education*
