

MARCH

Dear Families,

Spring is around the corner, bringing with it many changes. This month we will continue to discuss the weather and the coming of a new season. We will learn about wind, rain, and rainbows. We will also be spending more time outside, and taking nature walks to observe the seasonal changes.

Our main theme this month will be exploring the **Solar System**. We will read books, learn about each planet, and, the moon, sun, and stars. We will do art projects and have a sensory "Moon" table.

March 2nd is Dr. Seuss's birthday and we will read several of his books throughout the month. His books allow for many opportunities to listen for, and come up, with, rhyming words. Your child is welcome to bring in their favorite Dr. Seuss book to share with the class. We will also talk about many traditions surrounding St. Patrick's Day.

Happy Spring!

Heather

March Curriculum

Language Arts

- Alphabet –Uu,Vv, Ww, Xx, Yy
- Journaling
- Rhyming words
- Simple sight words
- Dr. Seuss books, Solar System books/vocabulary, St. Patrick's Day books, Spring books
