NOVEMBER

November Theme - Different Types of Animals

This month, we will focus on animals, including how and where they live: on land, in water, and in the air (flying). The following week, we will learn about the changes that occur when the weather gets cold and how these changes affect plants and animals.

We will talk about the shape "Triangle" and the color "Brown".

Discovery Center

During November, we will be exploring our 5 senses: sight, touch, sound, smell, taste

Teacher-Parent Conference

We will be holding Parent-Teacher Conferences via Zoom from November 11-13. These brief meetings, lasting about 5-10 minutes, will cover your child's progress. Before the conference, we will send a report on your child's progress for you to review. This will be a great opportunity to discuss any questions or concerns you may have.
Here is a link to select a convenient time for your meeting.
