Congratulations to our students who participated in the Summer Transition Program. We are very pleased to welcome new students passed through the welcome gantlet. Festivities continued in the Auditorium with a welcome event.

Along with our team, there's a lot going on at the El Centro Library and Learning Resource Center. As our library continues to grow, Chrissy Crissman and Kevin Nunez, and the El Centro team partnered with Google to teach our students about the computer science world. The Google Computer Science Summer Institute Extension program (Google CSSI-Extension) at El Centro was a 10-week, intensive and interactive program, learning HTML, CSS, JavaScript, Python, AppEngine and Datastore.

The inside scoop on the Inside Scoop Welcome Event.

As students passed through El Centro's lobby during the fall semester, Counseling Services was available for those who needed support during this exciting time in their life. Counseling Services has been working with students, faculty and staff at Northeastern since 1973.

During the fall semester, Counseling Services will be offered at El Centro.

A Message from the Director of Counseling and Health Services during the fall semester with a free ice cream bar on Tuesday, Aug. 27. As students passed through El Centro's lobby, they were greeted with a free ice cream bar. The event was open to all students, faculty, and staff.

The El Centro Newsletter is written and edited by Mimi Crespo and designed by Fausto P. Ortiz.

With her family and the El Centro community at her side, Jeanette will realize her dream of graduating from Northeastern University. Learning about psychology, how the mind works and how she can use her skills to help others, is a dream come true for Jeanette.

Soon after finishing STP, Jeanette wanted to transition from the Main Campus to El Centro. Northeastern's Student Success Center provided her with the information she needed to make the switch. She was able to complete her degree in Psychology and is now a graduate student.

On July 18, Vanesa and her family moved into Northeastern University's dormitory. Vanesa and her family arrived from Mexico to provide their children with a better life. Though they were not able to finish their own schooling in Mexico, they have been able to provide their children with a better life in the United States.

Jeanette and Vanessa are constantly supporting and sharing their achievements with one another while Jeanette's parents are the glue that holds the family together.

Jeanette has a very close relationship with her parents, who have guided her throughout her life. She has been an essential part of the El Centro team, assisting with tours and special projects. She says, "I am grateful for my experience in the cohort program. It has helped me a lot easier."

"I am grateful for my experience in the cohort program," Jeanette said of her time at El Centro. "It has helped me transition from the Main Campus to El Centro. Northeastern's Student Success Center provided me with the information I needed to make the switch. I am now a graduate student."
