

Dear Biology Students:

We are enjoying teaching those of you who are enrolled in summer courses and very much look forward to the fall! We would like to update you on fall courses.

As has been announced by NEIU, face-to-face instruction this fall will be held to a minimum, to protect the safety of students and the community.

In Biology, that means that the majority of courses will be Online (with no set meeting time) or Remote (may require students to meet remotely during scheduled class times). Compelling lectures and engaging laboratory exercises will be delivered through virtual formats. We are also working to provide safe on-campus or outdoor laboratory exercises for some courses. Please feel free to reach out to the instructor with questions about a particular course.

If you need to register for fall courses, we encourage you to do so ASAP, so that you continue your progress toward graduation. Please let us know what we can do to help! Email BiologyAdvising@neiu.edu for registration guidance and a biology advisor will contact you.

We wish you the best during these challenging times and look forward to being there for you as you continue to pursue your degree.

Sincerely,

The Biology Department faculty and staff
