

# Measure: Alumni Employment (Goal 2)

## General Definition:

Percent of undergraduate alumni who reported on the NEIU Alumni Survey that they are employed (full time or part time) in a job related or closely related to their major, one year post graduation.

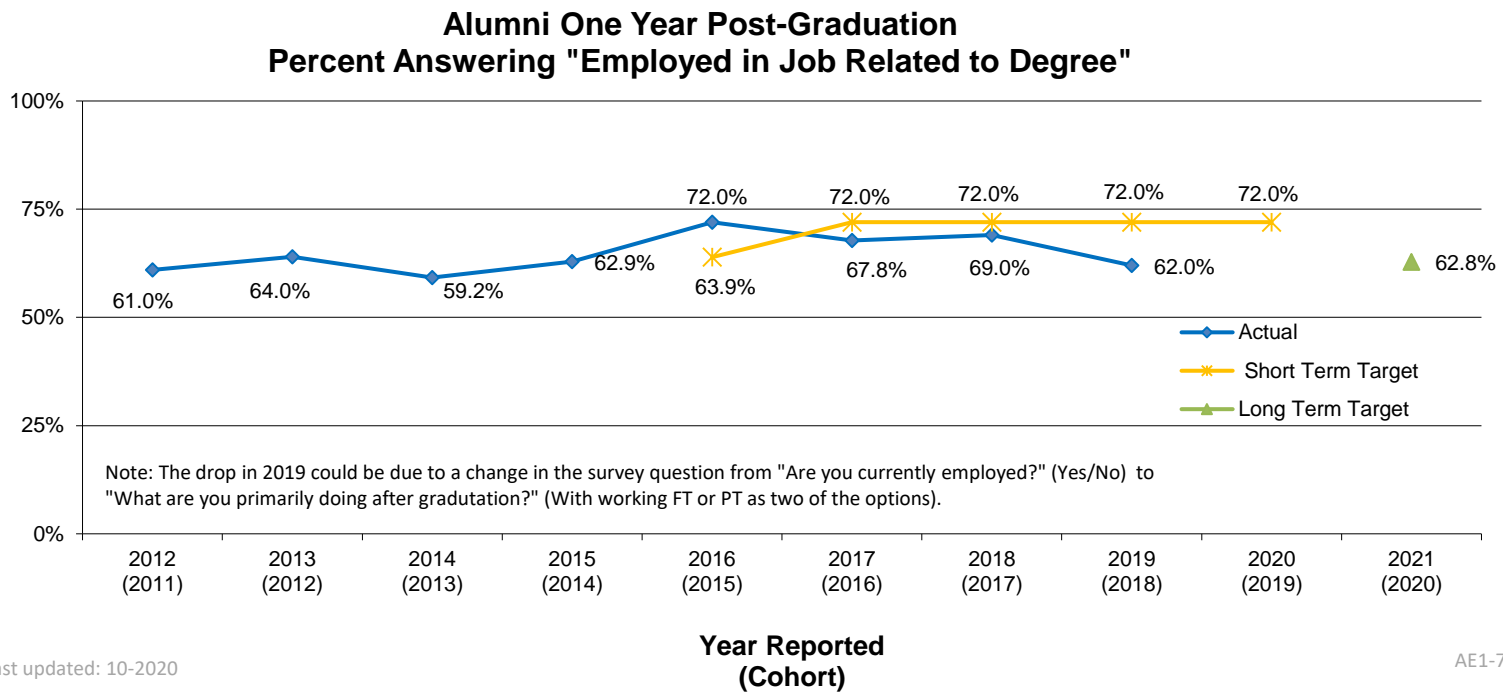

## Frame of Reference:

The frame of reference is set by past performance. When possible, targets are based on an average percent increase over past performance. When past performance is not available, varies, or shows a decline, institutional knowledge is used.

For long term target for the life of Northeastern's Strategic Plan is 62.8%. The current Actual exceeds the long term target. The short term target (currently 72.0%) is reviewed annually and revised if necessary.

## Frequency of Measurement:

This KPI is measured each Fall term.
