

Illinois State Board of Education (ISBE) PEP Entry into Teaching (Placement) Report

The Entry into Teaching report displays the number of completers from each program year who found full-time employment in teaching or other educational roles within two years of program completion. **Completers employed in a non-public or out-of-state school are not included in this report.**

ISBE only collects employment data from the state's public schools (including charter schools). Completers employed in a non-public or out-of-state school are not included in this report.

For the 2015 graduates of our teacher preparation programs, 73% were employed within two years at an Illinois public school.

For the 2016 graduates of our teacher preparation programs, 75% were employed within two years at an Illinois public school.

For the 2017 graduates of our teacher preparation programs, 64% were employed within two years at an Illinois public school.

For the 2018 graduates of our teacher preparation programs, 27% were employed within two years at an Illinois public school.
