

Measure: Degrees per 100 FTE Student Enrollment (Goal 1)

General Definition:

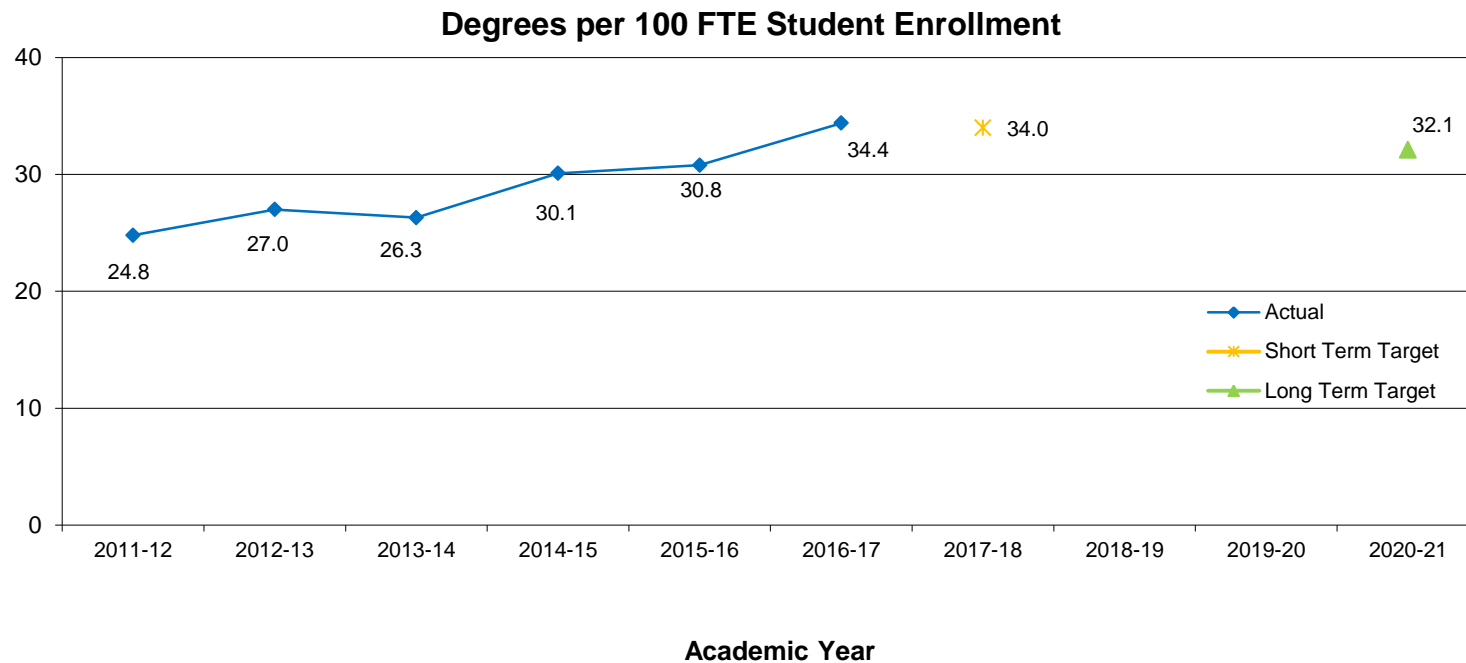

Number of degrees conferred per 100 FTE student enrollment is calculated by dividing the total degrees conferred by the total FTE student enrollment, times 100. This metric uses IPEDS data from the Completions Survey and 12-Month Enrollment Survey.

Frame of Reference:

Frame of reference is set by Northeastern's urban peers, who have an average of 27.7 degrees per 100 FTE student enrollment. The long term target for the life of Northeastern's Strategic Plan is 32.1. The short term target (currently 34.0) is reviewed annually and revised if necessary.

Frequency of Measurement:

This KPI is measured each Fall term.
