This map shows the geographic locations of 37,983 NEIU Alumni with addresses in the United States. 36,744 of alumni are listed in Illinois, representing 96.7% of the total. 146 alumni either did not have an address listed, or had an address outside of the United States.
This is a pilot study of a method of disaggregating alumni by demographic characteristics of the census tracts they live in. To the left is a map of 2010 of per capita incomes in the six county region, only for higher income tracts -- and NEIU alumni. By extracting alumni who live in these tracts, Institutional Advancement may be able to more easily contact perhaps some of the most financially successful alumni. The tract-level analysis is being conducted for alumni in all U.S. states.
ABOVE: 60,135 alumni in the U.S. were geocoded to street address.
