Discover new ways to integrate social, cultural, historical, economic, and political themes about Africa into your understanding and classroom. Collaborate with other teachers to create a classroom unit that will be implemented in the Fall.

Our goal is to provide K-12 teachers, and other interested participants, with the content, pedagogical techniques, and resources required to teach about Africa in an accurate and objective manner.

Taught by an interdisciplinary team of NEIU instructors and guest presenters, performances, field trips and more!
