Placement Site edTPA Video Permission Form**

\_\_\_\_\_ is student teaching at your school in \_\_\_\_\_.  
Student Teacher Name \_\_\_\_\_ semester/year

One of the Illinois State Board of Education (ISBE) licensure requirements is for the student teacher to be videotaped teaching a series of lessons in the classroom as part of the student teacher’s Teacher Performance Assessment (edTPA). The student teacher also must gather samples of student work to submit as edTPA evidence of his/her teaching practice. edTPA is an assessment of the student teacher’s instruction, not an assessment of the students in the classroom, the cooperating teacher, or your school.

After initial permission is granted by the principal and the cooperating teacher, it is the student teacher’s responsibility to obtain parental/guardian consent to allow learners to be videotaped using the approved district or ISBE edTPA videotaping consent forms. The student teacher will only include those students on the video whose parents/guardians granted permission. The student teacher will not exclude students whose parents/guardians did not grant consent from the learning activity if other students are required to participate in the learning activity.

The student teacher will use and submit the video tapes and student work as part of their edTPA evidence exclusively. The student teacher will not share or distribute these materials for any other personal or professional purposes. The student teacher understands that once he/she successfully completes the edTPA, all video material must be destroyed and signs a statement to that effect.

Materials submitted as part of the student teacher’s edTPA may be reviewed by College of Education faculty at Northeastern Illinois University for purposes of program analysis and evaluation, and they also may be used by test developers under secure conditions for edTPA program development and implementation, including scorer training. If applicable, portions of the said video recordings may be viewed in the future by a Northeastern Illinois University course instructor to evaluate or demonstrate the performance of the student teacher. Video clips collected by Northeastern Illinois University teacher preparation programs will be centrally maintained on a secure site and not further distributed either internally or externally. They will be destroyed in accordance with Northeastern Illinois University’s retention schedule.
